

# DECONFINEMENT GUIDE

YOUR SAFETY IS OUR PRIORITY

#UARESPONSIBLE

## 🌟 General principles

- This action plan targets **the students** at the Antonine University (UA).
- At UA, the limitation of physical presence remains in force until further notice. Hence, face-to-face activities are reduced to those that cannot be completed remotely and should be done with due regard to the social distancing measures.
- Campus access is reserved for the students meant to follow courses that were not provided through online learning.

## 🌟 General instructions

### Social distancing

- Greet without shaking hands;
- Maintain a minimum distance of 1.5 m with other persons;
- Restrict face-to-face meetings to a maximum of four persons, provided that the meetings are short and respect the rules of distancing and hygiene;
- Use the stairs instead of the elevators;
- These rules must be observed between the persons present on-site and between them and any other person called to intervene on-site for repairs, maintenance, cleaning, etc.

### Hygiene

- Wash your hands regularly for 20 seconds, following all the hand-washing steps;
- Use a hydro-alcoholic solution when access to water and soap is impossible;
- Use disposable tissues;
- Avoid touching your nose, mouth and eyes;
- Cough or sneeze into your elbow or a disposable tissue;
- Wear a face mask;
- Avoid sharing tools with several users (telephone, keyboard, pencil, printer, etc.). If a tool is to be shared, it must be disinfected with a 70% alcohol-containing product each time another person uses it;
- Limit access to toilets to one person at a time;
- Ventilate the premises (offices, classrooms, laboratories, etc.) for at least 10 minutes every hour;
- Leave the doors of the premises open in order to limit contact with handles.

## 🌟 Symptomatic persons

- Persons showing symptoms associated with a COVID-19 contamination (fever, signs of breathing difficulty such as coughing or shortness of breath, etc.) or having been in contact with a person who has tested positive must refrain from coming to the University.
- In order to access the campuses, these persons must present:
  - A medical report stating they observed the isolation measures and are authorized to return to work;
  - Two negative PCR results in case they were tested positive earlier.
- Please note that we are all responsible for the University's community. If a person does not declare their contact with a person who has tested positive, it could cause harm to the health of the whole community and thus, to society. Let us be vigilant!
