

**Call for application
Teaching mobility**

Co-funded by the
Erasmus+ Programme
of the European Union

**1. Presentation**

UA within its internationalization strategy which aims to support its activities is launching a call for application to its academic staff to participate in the International Seminar Week “**From Hardware To Software**” held at [JUNIA](#), France.

This opportunity will allow UA faculty members to teach Master 2 students from JUNIA for a full week from **February 1 to 5, 2027** (5 days / 8 hours of teaching) on topics related to Artificial Intelligence, Big Data, Cybersecurity, Embedded Electronics, IoT, Microelectronics, Nanotechnology, Robotics, Software Development & Information Systems.

This International Seminar Week will also allow participants to meet other international professors, from Europe and beyond, as the program will include not only seminar-style sessions with students, but also conferences and networking sessions with other participants and of course JUNIA departments and research teams.

The call is part of the inter-institutional agreement between JUNIA and Antonine University on International Credit Mobility (ICM), co-funded by the ERASMUS+ programme of the European Union.

2. Discipline

Computer Engineering, Computer Software.

3. Duration and Funding

The mobility is planned to take place from **1 to 5 February 2027**, five-day mobility excluding travel days.

The amount of 190 euros per day is allocated as an individual support.

The amount of 580 euros is allocated as travel cost.

4. Application procedure

The deadline for submission is **19 October 2026**

Interested applicants are invited to apply via the following link [Application Form](#), and notify the Dean of their intention to apply.
