

Letter of Appreciation

Dear student,

With a heart bursting with pride, it is my pleasure to address this letter to you for being named class valedictorian. Your outstanding academic performance and distinction are evidence of your hard work, daily effort, dedication, and determination which led to this glorious moment. As an enthusiastic learner, you have acquired the habit of embracing a growth mindset to become one of the top ranked graduates. During the past years, you excelled in your studies, flourished at all levels, and equipped yourself well for the transformative adventures that lie ahead. The graduation motto was to “Lead Silently and Spark Boldly”, and I think that the best life advice I can share with you is to always devote 100% of yourself to strive to achieve the best and shape your future. Antonine University will always remain your second home, for we fully believe in YOU, in the person who has made clear and radical choices to invest in education, nurture the true potential from within, and ceaselessly feed the sense of wonder.

Now is the time to reap the fruits of victory, young bright mind and ray of light. Start writing your own story, while keeping in mind how successfully you have managed to rise to the occasion despite tremendously challenging months, and to keep alive your unshakable determination to shine. I believe that you will be entrusted with the responsibility to serve your community, so do it with passion and never lose sight of the human values you need to cultivate.

May your path be paved with success. Continue to set the bar high, go on new adventures, spread your wings and soar!

Sincerely,

Fr. Ziad Maatouk
Secretary General
